

DOOR FRAME METAL DETECTORS

Metscan[®] Auto Tune Most Reliable & Economical Single Zone Walk Through Metal Detector

Metscan made reliable single piece walk through metal detector. It has been developed to detect clandestine ferrous and Non-ferrous metals on the body of a person when asked to pass through the door frame.

Salient Features:

1. Low cost single zone detector.
2. Quick Installation no training required.
3. Automatic zero adjustment.
4. 10 step bar graph indication LED Based.
5. Ignores external metals.

PHYSICAL PARAMETERS

Control Unit:	Built in
Ramp:	Covered with synthetic carpet for long life.
Passage:	1950mm x 750mm
Overall Dimension:	2100mm x 825mm x 300mm

PRINCIPAL

"The operation of metal detector is based upon the principals of electromagnetic induction."

TECHNICAL PARAMETERS

1. 10 levels of sensitivity.
2. CV & CC SMPS power supply for use with 90 V to 270 V.
3. Polyphonic tone through audio speaker.
4. Built in full function battery back-up for over 12 hours.
5. Detect all ferrous & Non-ferrous metals.
6. Intelligent people counters for entry, exit and algebraic sum. (Optional)

* All specifications are subject to change without notice due to continuous technology upgradation.
